

Why Us?

Using quality products and great service, we can take the fuss out of renting your face-down recovery equipment. Let us help select the right equipment for your recovery needs and budget, and enjoy a comfortable and successful result following your eye surgery!

About Us

With over 40 years of combined experience in the therapy and supply chain industries, we're here to take care of the details and get your equipment to your location when you need it.

Our Quality-First Products and Services

- High quality, well-made, eco-friendly quality equipment you can trust and rely on
- Peace of mind...with our focus on service and customer care. We include instructions with each piece too!
- Expertise in logistics to get your equipment there one time and at an affordable price.

Great Reasons to Rent from Us!

1. Great Service!

Have the right equipment there on time at affordable prices. Single table or quantity table rentals are available.

2. Convenient & Easy

Enjoy convenient online rental reservations. We handle the details with professional packaging, return labels, and pickup instructions included, as well as easy integration with conference, event, sporting, hospitality, & hotel management staff

3. Perfectly Portable & Lightweight

Lightweight wood and aluminum equipment made by the best quality makers.

4. Preferred Delivery - Quick Service

Don't pay retail! We can help with shipping costs. We can work with you quickly, too, by using area courier service.

5. Convenient Added Accessories

Rent bolsters or "Toppers" as needed. Disposable sheets and covers & washable sheets also available.

Quality & Eco-Friendly!

Wondering why we work with Oakworks and Stronglite equipment, and a Sleep System from Body Support Systems? Let us tell you about the quality of these products!

1. Equipment Standards

- Oakworks, Inc, the premier US manufacturer of massage and medical equipment announced its ability to produce treatment tables that comply with one of the industry's most stringent fire codes, CA 133 in 2008. OAKWORKS uses only the best materials to build their products, carefully selecting raw materials to ensure products withstand wear and tear placed on them. They select materials that are environmentally friendly, and use decades of experience in the industry to select PVC free materials that don't contain environmentally harmful dyes and chemicals. Each product is put through hours of extensive testing to ensure that design and construction will withstand stresses from daily usage, including testing by outside sources such as Underwriters Laboratories.
- Stronglite is a built-to-last manufacturer based in Vista, CA. Functionality, durability, value and aesthetics are important. Stronglite seeks to find the perfect balance of these qualities, favoring function over aesthetics. The superior ergonomics of this equipment makes it another best-in-class rental, and the weight these pieces support goes up to 600 pounds!

2. Body Support Systems Sleep System

- The contoured design of the *bodyCushion* is an orthopedic positioner created for maximum comfort and ultimate relaxation, allowing deep breathing, comfort for the low back, legs, neck and shoulders. This product adjusts to all sizes and shapes for men and women! The sleep system offers an excellent night-time solution for eye surgery recovery, and allows the patient to stay in the face down position by discouraging the natural tendency to roll onto the side or back.

How to Use Rental Equipment

Oakworks Portable Seated Support Chair

- Good for seated support.
- Exceptional comfort for any size client
- Quick and easy adjustments to arm rests, knee pads, chest pad, face rest, and seat
- Stable, strong, & supportive
- Gracefully designed with curving, sleek lines
- Rent alone: \$45/day, \$160 per week, \$99 add week

Oakworks Portable Desktop Unit

- Used at a table, desk or counter
- Easily sit, eat or read
- Light, portable unit with carrying case. Good in the car with a lap pillow.
- Easiest support piece to transport
- Provides the least expensive face-down recovery option
- Use with your own chair or upgrade to Portable Chair above for additional support
- Rent alone: \$25 day, \$65/week, \$40 add week

3-Piece Body Cushion Sleep System

- Excellent face-down solution for increasing comfort while sleeping
- Used for face-down eye-surgery recovery, this quality vinyl unit is allergy-free and cleaned between rentals with a non-soap enzyme-based cleaner and ultraviolet
- Patented, specific-density contoured construction that provides optimal support for reducing pressure and tension in your body.
- Rent alone: \$20/day, \$110/week, \$65 add week

Eye Surgery Rental Packages

Small Person's Sleep System

Opt for lighter, less contoured and adjustable pieces to fit a smaller person. Includes a MAT sleep system.

- Daily Rental: \$20
- Weekly Rental: \$110
- Additional Weeks: \$65

Frequently Asked Questions

If my equipment is shipped, when will it arrive?

Rental equipment arrives the day prior to your first rental use day. If you learn that you need equipment last-minute, we can work with local or express national carriers to get your equipment to you quickly.

How do I get equipment back to VitrectomyRentals?

If your equipment is being shipped back to us instead of your dropping it off, we work with professional transportation companies to handle your equipment. In the Chicagoland area we may use a courier. In the midwest we often use a regional carrier. For locations throughout the United States, we often use FedEx Ground or Express. Our volume shipping discounts ensure that your shipping rates stay low.

Return labels are typically provided on the inside of each box along with instructions. Local couriers do not require a box or label. We can schedule a FedEx pickup for a small charge, or you can drop a FedEx box at any FedEx Kinkos store.

Are face cradles included?

Yes!

Are bolsters included?

We rent these separately, as not all renters want them. They are not included, but are available for a small fee.

How do I get a specific price for my rental?

These prices include shipping. To add accessories or to order, call us at 800-687-5199 or visit us online at vitrectomyrentals.com. Orders for fast delivery can be taken over the phone.

How do I complete the rental order?

To complete your order, we need a rental agreement and a form of payment. You can click thru a rental agreement online. If you prefer, you can print and fax the agreement to us. Call us with payment information or request an online invoice, and your rental reservation is complete.
